

Using your lifestyle diary

You don't need to write down pages and pages of information about each meal that you have or the route that you walked through the park. A brief note is quite adequate.

DIET

Your doctor will have given you advice about possible healthy food choices. In addition, guides and hints are included in other helpful downloads provided on the website.

How to fill in your diary

For example: you had pasta with tomato and basil sauce for lunch, with a green salad.
